

R E M A R K S

The amendment to page 1 of the specification sets forth the international application information.

The amendment to the sixth paragraph on page 8 of the specification involves an obvious correction of an obvious error, since "tetrahydrothiopyran" is a saturated monocyclic heterocycle having a sulfur atom in its ring and the aforesaid paragraph also recites "tetrahydropyran."

Entry of this PRELIMINARY AMENDMENT is respectfully requested.

Respectfully submitted,

RICHARD S. BARTH
